

H

CENTRAL INTELLIGENCE AGENCY

WASHINGTON, D.C. 20505

General Counsel

22 June 1983

NOTE FOR THE DIRECTOR

Bill:

I am attaching the draft papers prepared by the Department of Defense. They look very good except for the second, third and fourth full paragraphs on page 2 of the classified proposed letter to Kenneth Robinson. In my view, by setting forth the negative aspects of a quarantine, we could be creating information that could be used against the Administration in the event a quarantine becomes necessary. I would delete those paragraphs.
